PERSONAL STATEMENT

Hello! I am a Communication Design graduate from the National Institute of Fashion Technology, Bengaluru. An optimistic visual thinker, an experience strategist, and UX/UI designer who believes in exploring new opportunities in everyday life to learn grow and apply my learnings in unique ways possible.

I focus on developing a wide spectrum of taste which helps me to connect with people of discrete wavelengths and create meaningful experiences through design. My design practice combines design thinking, user research, and experience strategy, all with a relentless focus on the user.

In my free time, I read about human behavior, cognitive psychology, evolutionary biology and learn new software tricks which help me approach design with a focus on people, establishing empathy for people on both ends.
